Coordinated Human Services Transportation Plan 2018 Update

WHAT'S THIS PLANNING PROJECT ALL ABOUT?

Coordinated Human Services Transportation Plans (CHSTPs) identify the transportation needs of individuals with disabilities, seniors, and people with low incomes; provide strategies for meeting these needs; and prioritize transportation services for funding and implementation.

Federal transit law requires a coordinated plan for projects that seek funding under the Enhanced Mobility for Seniors and Individuals with Disabilities (Section 5310). The CHSTP provides a blueprint to advance local coordination efforts and improve transportation services.

WHO'S PLANNING?

- Anchorage Metropolitan Area Transportation Solutions (AMATS) is the joint planning entity for the Municipality of Anchorage (MOA).
- AMATS hired GridWorks and Agnew::Beck to update the plan with robust input from stakeholders and community members. GridWorks is a Portland, OR-based transportation consulting firm that specializes in planning for people who don't drive. Agnew::Beck is an Anchorage-based multidisciplinary consulting firm that supports communities and organizations across Alaska.
