Julie Jessel, Past President

GOVERNMENT HILL COMMUNITY COUNCIL (GHCC) 2010 PARKS RESOLUTION

Whereas the Government Hill Community Council wishes to co-operate with the Municipality of Anchorage in an effort to maintain the neighborhood parks at their optimum appearance and safety, we adopt the following resolution:

The community of Government Hill, with the help of the Municipality of Anchorage, resolves to accomplish the following in the Government Hill parks before the first snow falls in 2010 (starred items are those for which we are requesting labor or administrative help from the Municipality):

ALDERWOOD PARK

No requests this year

AL MILLER PARK

This park is being covered in the Al Miller make-over plans

BROWN'S POINT PARK

*Add trash cans

HARVARD GREENBELT

*Remove brush at the top of the bluff that has re-grown since its removal in 2007

*Clear trails in entire greenbelt to width of 2 feet on each side

*Clear brush between bluff and Loop Road, from water tower to Anderson Street

HARVARD PARK

*Trim cotoneaster hedge

Prepare, plant, and maintain flower bed

RICHARDSON VISTA PARK

*Add trash cans

SUNSET PARK

*Provide topsoil and seeding for bare areas in the park

*Remove or securely fasten the loose cage that covers the hole where the old water spigot was. This is a danger to children playing in the park.

*Repair benches and add trash cans

*Add bollards or fencing to prevent vehicle access

SUSAN NIGHTINGALE MCKAY PARK

*Add dog station at east end of park

*Trim cotoneaster hedge

*Remove Siberian pea hedge and replace it with a low fence

Weed-eat around bollards and along edge of bluff at western end of park

Prepare bed, plant and maintain flowers

Maintain shrub beds

*Remove small brush that is behind the hedge, both for security and to encourage further growth of the wild roses that have established themselves there
