Dear Code Enforcement,  
I would like to add that yesterday I saw a dump truck load of material being transported from Villages View Estates Tracts TR B to a nearby construction site on Potter Glen.  
Thank you.

Dear Code Enforcement,

In addition to the concerns identified in Rabbit Creek Community Council's previous email of July 7, and permit issues identified by your recent site visit, I would like to make you aware that blasting was conducted on the residential site, Villages View Estates Tracts TR B today, July 9, at around 6:30pm. Residents of the neighborhood are quite concerned whether blasting is permitted at this site as well as the volume of material that is being transported to/from the site.

Thank you for your assistance in this matter.  
Jess Grunblatt  
Rabbit Creek Community Council, Board Member
