Other Funds - restricted and designated

The South Addition Community Council received a \$10,000 grant for the creation of the South Addition Neighborhood Plan in 2019 from the Municipality. Other communities that have written plans have received much larger grants, some more than \$50,000, to hire professional planning firms to write their firms. South Addition did not qualify for much of this grant funding because it is not a "low-income" neighborhood. It also proved difficult to raise money privately for the plan. Therefore, the expenses of the Plan creation were capped at the \$10,000 made available by the Municipality of Anchorage.

No members of the South Addition Executive Committee were compensated financially for work on the Neighborhood Plan (nor are they compensated for their service on the Executive Committee). It is an all-volunteer board. The only individuals who received financial compensation are those listed below.

A breakdown of expenses to date is below. The remaining funds have been earmarked for public distribution and printing of the plan.
