**Resilience Reminders!** Be prepared for windstorms and power outages. [Chugach Electric](#) information on Facebook is handy; report outages and track on the [CEA website](#) to help assess the scope of an outage. CEA offers resources on preparing for power outages and will assist with backup generator integration. If you use a backup generator, make sure it is NOT connected to your primary home's power and the grid in a way that might electrify lines being repaired. Wells require a backup water supply.
