

LOST AND SEEKING!

A "Sense of Place" for the Fairview Neighborhoods

Fairview Design Initiative

Come Shape the Future of our Neighborhoods!

The Fairview Community Council is moving forward with a key priority of our Municipally adopted Neighborhood Plan. This priority is to improve how Fairview looks and feels in order to create *Winter City Neighborhoods of Choice*.

As part of this effort, the Council has hosted two Design Workshops and is asking residents and businesses to participate in the Fairview Visual Preference Survey.(VPS) The VPS can be found at the Council's Facebook site "Friends of Fairview Community Council".

We also invite you to attend one or more of the Fairview Design Committee's meeting where the details are being hashed out.
