Mr. Pugh,

As a homeowner in the RCCC area since 1987, my concern is the appearance of increasing conflict, in and outside RCCC meetings, between property owners and advocates of parks and trails.

Reports of communications and conversations between Municipality of Anchorage (MOA) officials, MOA consultants, and certain Rabbit Creek Community Council (RCCC) board members suggest RCCC's primary purpose may have been allowed to evolve into representing interests of non-profit organizations such as "Alaska Trails" and "Friends of the Anchorage Coastal Wildlife Refuge" over interests of private landowners and homeowners (taxpayers) in the RCCC area.

To help defuse the situation, restore transparency, and work toward reconciliation, may I respectfully request your assistance in obtaining copies of all minutes, e-mails, and correspondence, current and archived, between RCCC Board members, officers, --including members appearing to act on behalf of RCCC--, and officials, commissioners, members, and staff of MOA, Agnew-Beck consulting group, Heritage Land Bank, "Alaska Trails", and "Friends of the Anchorage Coastal Wildlife Refuge" which impact homeowner and land owner issues within the RCCC area as defined by the MOA.

Thank you for your time. If you have questions, please call.

Joel Gaines
