Hi Randy,

I would like for you to work with Jess Grunblatt, as he lives near the area of concern & seems to be well versed on the issue. Thanks for including our Council in the planning process.

Hi Jess,

Please let Randy & I know if you are interested in working with him on the planning of the "Turning Movement Study".

Best regards,

Frank,

I am the DOT&PF representative who initially presented the project to the RCCC in Dec 2017. Sean asked me to contact you regarding the turning movement traffic counts planned for this summer. It would be helpful if you or others (in possible collaboration with your Community Council members?) would provide input on when would be a good month, day of week, and time that would best represent the Community Council's concerns regarding the rumble strips along the Seward Hwy. Our goal is to record traffic counts that the community will feel accurately represent their concerns.

Thanks for your assistance. If you have questions, do not hesitate to contact me.

Mr. Baski,

I want to thank you for attending the Rabbit Creek Community Council's meeting in March to address questions by some members and for presenting information in a professional manner.

Furthermore, I appreciate your detailed written response to the requests presented in the letter to you by the Council's Membership.

Best regards,

Frank Pugh

Dear Mr. Baski:

Thank you for attending the Rabbit Creek Community Council (RCCC) meeting on March 8th, 2018 to address Council Member questions regarding the pavement preservation project for the Seward Highway from Mile Post 114 to Dimond Boulevard. A majority of the voting members in attendance approved (27 Yea / 3 Nay / 1 Abstention) to submit the attached letter:

We thank you for considering our Council's recommendations in making a final determination in this matter.

Best regards,
