Frank,

See email below regarding the ARR noise zone at the firing range. Please forward to Jerry George if you can.

Thanks,

John Weddleton

John -

Long story short is that we are about 95% done with the Diagnostic Team report and should have everything completed by September. As a note to that, when I first spoke to Jerry George about this project in June of 2017 I told him it would take 12 to 18 months to complete the report once we knew whether or not the Municipality was interested in making changes to the crossing. We received the attached letter from the mayor in September of 2017, which started the process. This is a municipal crossing and under FRA regulations the municipality is responsible for changes and improvements to the crossing. The municipality is also responsible for putting this report together. We are working with Stephanie Mormilo at MOA and Scott Thomas at DOT to get it done.

Among the final items to be completed the diagnostic team is finalizing costs for options and doing risk computations using national risk threshold numbers. We will complete the process well within the 12 to 18 month window that we reported it would take.

Thanks.

Tim

Subject: Quiet zone for ARR at Rabbit Creek firing range

Tim,

Can you let me know the status of this request? It came up at the Rabbit Creek CC last week.

Thanks,

John Weddleton
