

NECC RESOLUTION
RESOLUTION NUMBER _____
ADDRESSING SUPPORT FOR INITIAL INVESTIGATION OF THE HOLD OF A FAT TIRE
BICYCLE RACE ON THE RJSP GOLF COURSE

WHEREAS the NECC has already adopted a resolution promoting alternative uses for the RJSP golf course, and

WHEREAS the NECC has been apprised of a rising interest in cross country hiking in RJSP, and a lack of awareness of existing places in the park where people can presently bicycle off pavement, and

WHEREAS interest in fat tire bikes has risen dramatically in Anchorage and has resulted in a number of community ride events already, and

WHEREAS riding of fat tire bikes on golf courses has already been implemented at other venues (see for example the National Fat Bike Championships and Indian Trails (<https://www.youtube.com/watch?v=DDrOUOxFnuc>), and

NOW THEREFOR the NECC hereby resolves that it endorses in principle the holding of a Fat Tire Event in RJSP over the golf course and such existing dirt roads (i. e. excluding any game trails or footpaths) as may be employable without any environmental hazard or impact on local game) and authorizes persons to be designated by the Board to investigate what would be required to hold such an event (e. g. sponsors, staffing, profits, fees, etc.)
