I'm writing to inquire/comment about the agenda for the next board meeting. I spoke with Bert and his interest to present on the Stewart road issue.

I believe earlier this spring we discussed at a meeting that the council may not be the right place for this very heated topic. I still agree with that stance, unless the council would like to facilitate some sort of committee that includes more than only the proponents of unrestricted access, as they have done in the past.

That that being said, if the topic is going to be discussed at the council meeting, I encourage the landowners to give an update on their work and plan on this issue.

I am very much interested, living in the neighborhood, to hear solutions to this issue, not just uncontrolled access.

Thanks, any input would be appreciated.
