*AWWU is updating the sewer near you!*

Sewer rehabilitation project vicinity

AWWU is beginning efforts to upgrade 680 feet of existing sewer main near North Hoyt Street.

This effort is necessary to:

- **Rehabilitate** aging sewer infrastructure
- **Protect your health and safety** by preventing neighborhood sanitary sewer overflows, and
- Provide the **best possible sanitary sewer service**.

AWWU will use trenchless technology to minimize open trench construction impacts to your neighborhood.

To:

Construction is anticipated to occur this summer of 2019!

*Advanced notice will be provided to impacted properties.*
