

NORTHEAST COMMUNITY COUNCIL

A Resolution Supporting Alternative Uses of the Russian Jack Springs Golf Course

Whereas the RJSP Master Plan has historically recommended that the golf course should be dismantled or at a minimum subject to reduced hours during the summer on a regular basis so as to promote other and diverse uses of the acres now used almost solely for the golf course, and

Whereas the golf course would make an excellent place in which to promote and conduct a wide variety of activities as originally identified in the RJSP Master Plan, and

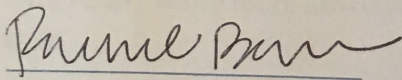

Whereas use of the golf course for such purposes provides an opportunity to increase usage of the Park without impacting usage of portions of the park already subject to rising usage,

Now therefore, the NECC resolves that the RJSP golf course be closed or subject to a modified schedule in which it is closed to golf half the days of the week.
