Happy spring.. Time to think about bears and what they like to eat when they come out of hibernation.

If you want to make sure that many bears will be killed in our valley this year do the following things:

1. put good smelling garbage out day before pick up.
2. Leave dog food out 24 hours a day
3. Keep feeding birds, specially sunflower seeds
4. Put small dogs out on a leash next to the garbage pails..

SERIOUSLY FOLKS.. DO NOT DO ANY OF THE ABOVE. IN ADDITION, KEEP GOOD SMELLING GARBAGE LIKE FISH GUTS ETC. FROZEN UNTIL DAY OF GARBAGE PICKUP.. OR

Take it to the dump yourself. It is only \$1 per bag and it is right at the bottom of the hill

Lets make sure we are not the cause of dead bears this year. Or worse yet, people being

injured or killed by bears..

Practice bear safe garbage

Keep Alaska's bears wild

Ps. The authorities are ready with FINES if they find you have invited bears to your house.

Spring time house cleaning

Some people have an early start.. So if you are interested in some good stuff, call Suzanne Marcy at 622-2210 she sent me a note in late march about neat things for sale, I don't know if they are still available. But here goes: Baby jogger, childs tandembike, queen size bedframe, xmas tree and a live cut stand, pedestal student desk, wood dining chairs.. And the prices seem good. So go 'fer it..

Other issues:

Mr. Braunstein, and others in the middle section of the road had a bad experience with powersurge causing damage to equipment. MEA is denying liability, saying it happened in the house, not from their end. He wants to know if anyone else had damage from the powersurge in December 03.

Call him if you did have damage: 696-0741

The Municipal Clean up week is coming up.. You can get garbage bags from the Chamber of commerce to use for picking up stuff along the road.

In the past, the Firedepartment has also had bags to pick up . The land fill will be free, check the Star and newspapers to verify dates.

And finally, consider joining the American Cancer society in the 2nd annual Relay for Life, at Chugiak Highschool May 21, 22. You can get more info from me.

689-6476

it's about a community that takes up the fight..

Special invite to survivors. Join us for the victory lap at 7 pm. Opening 5/21/04

The Community Council meets every **1st Thursday**

of each month, September to May at the Firestation at Mile 4.2 Hiland **7.30 pm**

Last meeting had Mayor Begich in attendance, as well as people from the Highschool construction department, AWWU and others from MOA..

You need to be there at the meetings to make sure your voice is heard about issues that the council brings forth and sends to the Muni about your opinion.

Current issues:

Greenbelt access

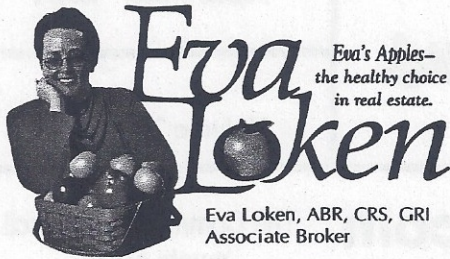

Traffic to new Highschool

Alignment of AWWU lines to new Highschool

BE there

May 6 at 7.30 pm
