

SCENIC FOOTHILLS COMMUNITY COUNCIL

January 2003

RECEIVED
Date: _____

HAPPY HOLIDAYS

Your Board of Directors of Scenic Foothills Community Council extends to you seasons greetings and wishes you safe holidays and a healthy, prosperous new year.

January 2nd Meeting Canceled

The January 2nd Council meeting has been canceled as it would have come so close to the end of the holidays. Our next meeting will be February 6, 2003.

NEEDED: Ideas for Future Meeting Topics

In lieu of the January Council meeting, your Board of Directors will meet to discuss ideas for topics for our meetings over the next few months. If you have any topics on which you would like more information, please contact any of your Board members (see phone numbers and email addresses at the end of this notice) as soon as possible.

At our February meeting we expect to continue our discussion of roads in our neighborhoods. Lance Wilbur from the Municipality will describe the differences in "Collector Streets" and "Neighborhood Roads". Many of our members believe that Pioneer Drive and 32nd Street desperately need upgrades. This presentation will help us with the process for requesting the upgrades.

Another meeting may also include a presentation on establishing Neighborhood Watch in our areas.

There are many citizen advisory groups in the Municipality working on a transportation study for East Anchorage and on revisions to the zoning ordinances and on the sign ordinance. We will bring this information to you as it is available.

New Parks

A high priority request from our Council members to the Municipality has been to add parks to the Eastside, particularly the vacant land to the East of the overpass at 36th & Muldoon. This land is zoned for multi-family homes and could be developed to a very high density. The Council is seeking ideas on how the property could be utilized as a park, and ways the Municipality could finance its acquisition. Look for discussion of this at a future meeting.

Noise Buffer and Patterson Road Upgrade, Phase 2

The preliminary plans and specifications for Phase 2 of the Patterson Road upgrade and the noise buffer on the NW side of the Tudor/Muldoon curve (Project 99-35b) are available at the Municipality. Written comments are due by January 10. If you need additional information about the project, call Russell Oswald, Project Administrator, at 343-8196.

THANK YOU TO BRITTANY PLACE!

A big thanks goes out to Brittany Place for their financial contribution to the Scenic Foothills Community Council.
