Wanetta Agers. www.Commonwealthnorth.org.

Commonwealth North's mission is to educate Alaskans on significant public policy issues and assist in identifying effective solutions.

In that process, CWN fills a unique, non-partisan niche that provides Alaskans with access to policy makers, frank dialogue, and continual civic engagement. We bring clarity to issues free from political bias, and advocate for thoughtful, deliberative development of public policy.

Governors Bill Egan and Walter Hickel founded the organization in 1979 to bring together Alaskans who cared about Alaska then and into its future. Having once been political opponents, they united to create a non-partisan environment that continues to bring together some of the most inspiring leaders and thinkers of the day; to study and explore the unique nature of Alaska; to wrestle with the toughest policy issues; and prepare Alaskans to step up to public service.
