A special thanks to those who clear snow from our pathways and side walks. Your efforts provide a safer and more livable neighborhood. Thank you very much!

Airport Heights Community Council

November 16, 2006 meeting summary- interim report

Community Patrol was a central topic of November's meeting. In order to make full use of available grant money and provided financial oversight, there was an expressed need to incorporate the patrol into the community council as an Ad Hoc committee. This action was taken during the break by the executive committee. This allows the FCC to administer Grant money to the patrol for a nominal 2% fee. Incorporating the patrol as a standing committee will be considered after a review of the patrol by the council as a whole.

There was a presentation on the proposed Clark Jr High remodel. Traffic calming is still on the agenda. A letter is being drafted regarding the traffic calming process. A letter of support is also being drafted regarding upgrades to AFD station #3.

The nominating committee presented it's report and elections where held our new officers are President Mark Fish, Vice President Chris Doucette and Secretary/ Treasurer, Dawn Scott.
