SUBJECT: Removal of Pike from Cheney Lake

At the NECC general membership meeting of April 21, 2005, a presentation on the subject of gill netting Cheney Lake for the purpose of removing the illegally stocked pike was made by Dan Bosch with the Department of Fish and Game:

As the stocking of area lakes with trout, landlocked salmon and other sportfish by the Department of Fish and Game has tremendous recreational and economic value to the community (much more so than the illegally stocked pike), a motion was made in support of removing the pike and restocking the lake:

NECC April 21, 2005 Motion (6):

The NECC supports the removal of pike from Cheney lake, and the restocking of the lake with sportfish.

Motion passed; 13 in favor, 0 opposed, 0 abstaining.

We ask that you act upon this motion as warranted in the interests of the NECC and the community of Anchorage as a whole. Thank you for your attention to this matter.

Signed:

This day:

Bill Wielechowski, Vice President NECC
