

At the North East Community Council (NECC) Special Membership Meeting held on August 26, 2010, the following resolutions were presented from the floor and voted on:

1. A Resolution: NECC August 26, 2010, Concerning the Seeds of Change Project.

Hereby be it Resolved:

That we the citizens of Northeast Community Council, recognize that while the "Seeds of Change" project appears to be an innovative and worthy project, we respectfully reject it being built on the "ML&P" land adjacent to Centennial Park as the land may be needed for the upgrade and/or expansion of the ML&P Plant as has been told to us by the MOA, and until the potential land swap between the Muldoon Park Strip and Centennial Park has been determined.
