

# Federation of Community Councils Manager's Report

January 19, 2011

## **Status of 2011 MOA Contract:**

The Assembly approved the granting of \$80,000.00 to the FCC for the 2011 fiscal year. FCC President Dick Tremaine signed the contract last week and the MOA cut a check for \$20,000.00 on Friday January 14th.

## **FY2012 State of Alaska Grant Requests:**

Start planning for the grants you might want to request for the 2012 Fiscal Year. Think of your neighborhood needs and how State of Alaska grant funds could help you meet those needs. I will assist you in requesting a neighborhood grant. Last year was our most successful capital budget request year ever!

## **New FCC Fax Number:**

Yep, the FCC has a new fax number! The new Canon multi-purpose copy machine/printer/scanner also acts as a fax machine. **The new fax number is 222-3878.** So now you can fax those CC attendance sheets directly to us at 222-3878.

## **Please volunteer for NUSA 2011 Anchorage Conference committees:**

We need people to volunteer to be on NUSA organizing committees! No volunteers, no NUSA conference! Contact Sheli Dodson at [shelidodson@gmail.com](mailto:shelidodson@gmail.com)

## **Use of 2011 MOA Contract funds:**

With a greatly reduced MOA contract, we must be very efficient with the funds we do have. To that end, we ask you to greatly reduce the size of your USPS mailing lists. We do not wish to eliminate USPS mailings at this time, just reduce them greatly. So please contact your USPS newsletter recipients and ask them to convert over to email. The FCC has lessened the cost of our mailing contract by reducing the minimums we pay each month, but now we must further shrink the USPS mailing lists. Thanks, thanks, thanks for your help!

## **Grant reporting up to date:**

All State of Alaska grant reports are up to date.
