

**A Resolution Regarding Changes to Master Site Plans for Anchorage School District Property without
Community Council Input**

**Whereas funding was provided by the State of Alaska to the Anchorage School District (ASD) to
construct a football stadium on the site of South Anchorage High School;**

Whereas the stadium required a major change to the approved site plan for South High School;

Whereas community council input was not solicited a timely manner;

**Therefore be it resolved that Mid Hillside and Hillside East Community Councils recommend that it
become a part of ASD School Board policy that any changes proposed to all school site plans require
local community council input. Such community council input would take the form of written
correspondence that is signed by the local community council board president.**

**Passed and approved unanimously by Mid Hillside and Hillside East Community Councils on February
17, 2012.**

Respectfully,

Linda Lappi

President, Hillside East Community Council

Lance Powell

President, Mid Hillside Community Council
