Dear Michelle,

Thank you for providing the Chugiak Community Council with an update on the status of the new Chugiak Volunteer Fire Station 35 at our regular meeting in January.

The participants in the meeting wanted to register their support for the new design and construction of Fire Station 35. As you recall, we did not have enough Board members present for a quorum. However, we had a very well-attended meeting in terms of Chugiak residents, and because your deadline for comment was before our next regular meeting, the question of support for the project was put to the meeting as a whole. There was unanimous support of the project. Though this does not constitute an official resolution or decision on the part of the Council because of the lack of quorum, we hope it will be helpful in understanding community support for the new fire station.

Sincerely,

Erin Dovichin
Secretary
