

The following comments from the membership will be relayed to Edgar Tinegaro:

- There is no street sign for Salem
- Cars have been parking on the west side of MacInnes – maybe “no parking” signs would be in order.
- the raised intersections don’t seem to be slowing down traffic much and they are very noisy when taken at high speeds.

Dick Traini offered to call Lance Wilbur and request a trip and speed study for MacInnes.

U-Med Plan: has been approved by Planning and Zoning. Some of our minor concerns were addressed but there is still no other access point into the district which was our main concern. It goes before the Asesmbly in September or October.

New Business: APD would like to know one or two major concerns from each community council. After discussion, consensus was to list the parking lot at David Green Park for illicit activities after dark, and speeding on MacInnes as the second item. The meeting was adjourned at 8:45 PM

Agenda

Tudor Area Community Council

October 2, 2003 7:00 PM

First Christian Methodist Episcopal Church

- 1.) Assembly report: our assemblymen would like you to bring your priorities for next year’s budget, in light of the cuts that will be made..
