2. Install speed bumps in the parking lot.
3. No outside activities such as snow machine jumps/races, motorcycle races, and other similar activities.
4. Limit access to the neighborhood from the parking lot.
5. Security helpers in the parking lot to help identify criminal activity.
6. Noise be controlled from both inside and outside the establishment so that it does not filter over the property lines. Noise to include, but not limited to, music, yelling, tire squealing, etc.
