

UNIVERSITY AREA COMMUNITY COUNCIL AGENDA

Wednesday, April 1, 2015, 7:00-9:00 P.M.

LOCATION: University Baptist Church
4313 Wright Street (corner of Tudor and Wright St.)

1. Call to Order: (7:00 PM)
 - A. Welcome: Vice President
 - B. Introductions: (5 Min)
2. Approval of Minutes: March 2015 Minutes (5 Min)
3. Additions to and Approval: April 2015 Agenda (2 Min)
4. Informational Reports: (2 min)
5. Reports from Public/Elected Officials: (3 Min each)
6. UACC Board Reports: (2 Min each)
7. FCC Representative Report: (2 Min)
8. Business (7:50 P.M.)
 - A. Julie K. Jessen, Public Involvement Manager, HDR INC - Repairing a major water line beneath the intersection of Tudor and Elmore roads starting April. (10 Min)
 - B. Phil Steyer, Director, Government Relations & Corp Comm Chugach Electric Asso - Planned change to communications tower at their University Substation (10 Min)
 - C. Julie Harbor, OEM, Emergency Programs Manager, Disaster Preparedness (10 Min)
 - D. Beth Norlund, Anchorage Parks Foundation Information (10 Min)
 - E. Steve Rafuse, P&R, University Lake Master Plan (10 Min)
 - F. Karen Thrash-Purtzer, Activity/Volunteer Coordinator, Providence Horizon House, Folker Park project.
 - G. Resolution - HB 147 Animal Welfare (Atch-1) – Al Milspaugh (10 Min)
 - H. Resolution - Prohibiting the Establishment or Operation of Cannabis Facilities (Atch- 2) – Al Milspaugh (10 Min)
 - I. Resolution – Prohibiting the Establishment of a Tennis Facility or Prohibiting the Establishment of a Tennis Facility without additional information (Atchs 3-4) – Paul Stang (10 Min)
 - J. Effect of State Legislator Cuts – Russ Kell (if time permits)
 - K. Should a UACC Rep attend other CC meetings – Russ Kell (if time permits)
9. Adjournment no later than 9:00 PM

Atch 4:

1. Resolution - HB 147 Animal Welfare
2. Resolution - Prohibiting the Establishment or Operation of Cannabis Facility
3. Resolution - Prohibiting the Establishment of a Tennis Facility (Ver A)
4. Resolution - Prohibiting the Establishment of a Tennis Facility (Ver B)

“The purpose of the council shall be to improve communications between the citizens of the community and all entities, which may affect it, to encourage community involvement of all citizens, and to respond to local government proposals submitted to the council.”

– Bylaws of the University Area Community Council –

UNIVERSITY AREA COMMUNITY COUNCIL (UACC) – RESOLUTION 2015-02

DRAFT

A Resolution of UACC In Consideration of House Bill 147 as it Relates Animal Welfare

WHEREAS the Anchorage Municipal Charter Art, VIII, Sec 8.01 establishes Community Councils as representatives for neighborhoods in planning and development; **and**

WHEREAS the UACC has considered House Bill 147 as it relates to the cost of care in animal cruelty and neglect cases, the inclusion of animals in protective orders in domestic violence cases, and providing for the custody of animals in divorce cases; **and**

WHEREAS one of the greatest obstacles for enforcing animal cruelty laws is the cost of caring for abused and neglected animals for long periods of time while cases are prosecuted, especially in situations where dozens of animals are seized for their protection; **and**

WHEREAS cost of animal care laws assist in remedying that obstacle by holding offenders responsible for the financial burden of caring for their pets through posting of a court ordered bond; **and**

WHEREAS cost of animal care laws also allow for the adoption and re-homing of seized animals if an owner fails to post a bond to provide care for their animals; **and**

WHEREAS a number of studies show the link between animal and human violence and that pet abuse is a predictor of domestic violence; **and**

WHEREAS abusers manipulate and control human victims through threatened or actual violence against family pets causing victims to stay in unsafe situations to protect their animals; **and**

WHEREAS including animals in protection orders is an important way to remove an obstacle that prevents victims from seeking safety and insure the welfare and protection of all victims of family violence, human and animal; **and**

WHEREAS because pets play a significant role in our lives and become part of our family units, they **should not be treated as personal property** in divorce and domestic violence cases; **and**

WHEREAS the courts should consider the best interest of the pet in making custody determinations in cases of divorce and domestic violence.

THEREFORE UACC hereby resolves: That House Bill 147 be enacted by the legislature as it protects people and animals in Alaska.

NOW THEREFORE the UACC hereby resolves:

THAT we **DO NOT** want the Establishment or Operation of Cannabis Facilities within our boundaries

“The purpose of the council shall be to improve communications between the citizens of the community and all entities, which may affect it, to encourage community involvement of all citizens, and to respond to local government proposals submitted to the council.”

Resolution Vote: For ___ Against: ___ Abstain: ___

This resolution was approved by the University Area Community Council this day of April 1, 2015.

Albert K Milspaugh, Vice Present, UACC

Attachment

Bipartisan Bill Introduced Setting Legal Standards for Pets in Divorce and Domestic Violence Proceedings

Monday, March 16th, 2015 @ 2:37PM

Contact: **Will Vandergriff**, 465-5284

HB147 holds owners responsible for costs if seized due to cruelty or neglect

A bipartisan effort in the Alaska Legislature will allow the well-being of pets to be considered in several different legal proceedings. HB 147 is sponsored by District 22 State Representative Liz Vazquez (R-Anchorage) and District 16 State Representative Max Gruenberg (D-Anchorage).

“Pets are often considered part of a family and the courts should be able to consider their well-being,” said Rep. Vazquez. “This legislation will make it more difficult for a pet to be used by an abuser to keep a victim from reporting that abuse.”

HB 147 does three things. It allows consideration of the well-being of an animal when deciding ownership of pets in divorce proceedings. It creates statutory protections for pets in protective orders and allows custody to be granted to victims. HB 147 also amends state statutes to shift the financial burden of caring for animals seized due to neglect or cruelty from government agencies or shelters to the owner of the animal.

“Currently, local governments or shelters pay for the care of neglected or abused pets they accept,” said Rep. Gruenberg. “This is wrong. This legislation ensures that the cost of care falls on the owner of the pet.”

HB 147 is being cosponsored Rep. Gabrielle LeDoux (R-Anchorage), Rep. Bob Lynn (R-Anchorage), Rep. Harriet Drummond (D-Anchorage), Rep. Bryce Edgmon (D-Dillingham), Rep. David Guttenberg (D-Fairbanks), Rep. Andy Josephson (D-Anchorage), Rep. Dan Ortiz (I-Ketchikan), Rep. Geran Tarr (D-Anchorage), Rep. Chris Tuck (D-Anchorage), and Rep. Cathy Munoz (R-Juneau).

HB 147 has been referred to the House Judiciary Committee.

For more information contact House Majority Press Secretary Will Vandergriff at (907) 465-5284 or Alaska Independent Democratic Coalition Press Secretary Mike Mason at (907) 465-3842

“The purpose of the council shall be to improve communications between the citizens of the community and all entities, which may affect it, to encourage community involvement of all citizens, and to respond to local government proposals submitted to the council.”

UNIVERSITY AREA COMMUNITY COUNCIL (UACC) – RESOLUTION 2015-03

DRAFT

**A Resolution of UACC Prohibiting the Establishment or Operation of Cannabis
(Marijuana) Facilities Within our Boundaries**

WHEREAS the Anchorage Municipal Charter Art, VIII, Sec 8.01 establishes Community Councils as representatives for neighborhoods in planning and development; **and**

WHEREAS on January 27, 2015 the Anchorage Assembly passed Ordinance No. AO 2015-7, an ordinance amending Anchorage Municipal Code Chapter 8.35 with a new section to prohibit the consumption of marijuana in a public place; **and**

WHEREAS on February 24, 2015 recreational use of Marijuana became legal in the State of Alaska under certain regulations. "Know Your Grow" aims to inform citizens and visitors of the Municipality of Anchorage of what they can and cannot do with marijuana within the municipality; **and**

WHEREAS on February 24, 2015 the Anchorage Assembly passed an ordinance at special meeting regarding the butane hash oil extraction process of marijuana. Under 8.35.350 (Prohibited Acts Regarding Marijuana) it is unlawful for any person to manufacture a marijuana concentrate hashish, or hash oil by use of solvents containing compressed flammable gases or through use of a solvent-based extraction method using a substance other than vegetable glycerin, unless the person is validly licensed and permitted in accordance with statute, regulation, or ordinance; **and**

WHEREAS under state law a person, employer, school, hospital, recreation or youth center, correction facility, corporation or any other entity who occupies, owns or controls private property may prohibit or otherwise regulate the possession, consumption, use, display, transfer, distribution, sale, transportation or growing of marijuana on or in that property. Persons who violate the policy are subject to prosecution for the misdemeanor offense of criminal trespass in violation of AS 11.46.330. In the Municipality of Anchorage, this offense would be cited under 8.45.010; **and**

WHEREAS the attached descriptions identifies the negative effects and results marijuana has on the public and private party citizens lives, is overwhelming justification for not allowing it.

THEREFORE UACC voted to prohibit the establishment or operation of cannabis facilities within our boundaries.

NOW THEREFORE the UACC hereby resolves:

THAT we **DO NOT** want the Establishment or Operation of Cannabis Facilities within our boundaries

Resolution Vote: For ___ Against: ___ Abstain: ___

This resolution was approved by the University Area Community Council this day of April 1, 2015.

Albert K Milspagh, Vice Present, UACC

ATCH

WHEREAS marijuana affects the Brain. The main chemical in marijuana that affects the brain is delta-9-tetrahydrocannabinol (THC). When marijuana is smoked, THC quickly passes from the lungs into the bloodstream, which carries it to organs throughout the body, including the brain. As it enters the brain, THC attaches to cells, or neurons, with specific kinds of receptors called cannabinoid receptors. Normally, these receptors are activated by chemicals that occur naturally in the body. They are part of a communication network in the brain called the endocannabinoid system. This system is important in normal brain development and function. Most of the cannabinoid receptors are found in parts of the brain that influence pleasure, memory, thinking, concentration, sensory and time perception, and coordinated movement. Marijuana triggers an increase in the activity of the endocannabinoid system, which causes the release of dopamine in the brain's reward centers, creating the pleasurable feelings or "high." Other effects include changes in perceptions and mood, lack of coordination, difficulty with thinking and problem solving, and disrupted learning and memory. Certain parts of the brain have a lot of cannabinoid receptors. These areas are the hippocampus, the cerebellum, the basal ganglia, and the cerebral cortex. The functions that these brain areas control are the ones most affected by marijuana; **and**

WHEREAS marijuana affects learning and memory. The hippocampus plays a critical role in certain types of learning. Disrupting its normal functioning can lead to problems studying, learning new things, and recalling recent events. A recent study followed people from age 13 to 38 and found that those who used marijuana a lot in their teens had up to an 8 point drop in IQ, even if they quit in adulthood; **and**

WHEREAS marijuana affects coordination. THC affects the cerebellum, the area of our brain that controls balance and coordination, and the basal ganglia, another part of the brain that helps control movement. These effects can influence performance in such activities as sports, driving, and video games; **and**

WHEREAS marijuana affects judgment. Since THC affects areas of the frontal cortex involved in decision making, using it can cause you to do things you might not do when you are not under the influence of drugs—such as engaging in risky sexual behavior, which can lead to sexually transmitted diseases (STDs) like HIV, the virus that causes AIDS—or getting in a car with someone who's been drinking or is high on marijuana. When marijuana is smoked, its effects begin almost immediately and can last from 1 to 3 hours. Decision making, concentration, and memory can suffer for days after use, especially in regular users. If marijuana is consumed in foods or beverages, the effects of THC appear later—usually in 30 minutes to 1 hour—but can last over 4 hours.

Long-term, regular use of marijuana—starting in the teen years—may impair brain development and lower IQ, meaning the brain may not reach its full potential. The changes that take place in the brain when a person uses marijuana can cause serious health problems and affect a person's daily life; **and**

WHEREAS marijuana affects health. Within a few minutes after inhaling marijuana smoke, a person's heart rate speeds up, the bronchial passages (the pipes that let air in and out of your lungs) relax and become enlarged, and blood vessels in the eyes expand, making the eyes look red. While these and other effects seem harmless, they can take a toll on the body.

Increased heart rate. When someone uses marijuana, heart rate—normally 70 to 80 beats per minute—may increase by 20 to 50 beats per minute or, in some cases, even double. This effect can be greater if other drugs are taken with marijuana. The increased heart rate forces the heart to work extra hard to keep up.

Respiratory (lung and breathing) problems. Smoke from marijuana irritates the lungs, causing breathing and lung problems among regular users similar to those experienced by people who smoke tobacco—like a daily cough and a greater risk for lung infections such as pneumonia. While research has not found a strong association between marijuana and lung cancer, many people who smoke marijuana also smoke cigarettes, which do cause cancer. And, some studies have suggested that smoking marijuana could make it harder to quit cigarette smoking.

Increased risk for mental health problems. Marijuana use has been linked with depression and anxiety, as well as suicidal thoughts among adolescents. In addition, research has suggested that in people with a genetic risk for developing schizophrenia, smoking marijuana during adolescence may increase the risk for developing psychosis and developing it at an earlier age. Researchers are still learning exactly what the relationship is between these mental health problems and marijuana use.

Increased risk of problems for an unborn baby. Pregnant women who use marijuana may risk changing the developing brain of the unborn baby. These changes could contribute to problems with attention, memory, and problem solving; **and**

WHEREAS marijuana affects school and social life. The effects of marijuana on the brain and body can have a serious impact on a person's life.

Reduced school performance. Students who smoke marijuana tend to get lower grades and are more likely to drop out of high school than their peers who do not use. The effects of marijuana on attention, memory, and learning can last for days or weeks. These effects have a negative impact on learning and motivation. In fact, people who use marijuana regularly for a long time are less satisfied with their lives and have more problems with friends and family compared to people who do not use marijuana.

Impaired driving. It is unsafe to drive while under the influence of marijuana. Marijuana affects a number of skills required for safe driving—alertness, concentration, coordination, and reaction time—so it's not safe to drive high or to ride with someone who's been smoking. Marijuana makes it hard to judge distances and react to signals and sounds on the road. Marijuana is the most common illegal drug involved in auto fatalities. High school seniors who smoke marijuana are 2 times more likely to receive a traffic ticket and 65% more likely to get into an accident than those who don't smoke. In 2011, among 12th graders, 12.5% reported that within the past 2 weeks they had driven after using marijuana. And combining marijuana with drinking even a small amount of alcohol greatly increases driving danger, more than either drug alone.

Potential gateway to other drugs. Most young people who use marijuana do not go on to use other drugs. However, those who use marijuana, alcohol, or tobacco during their teen years are more likely to use other illegal drugs. It isn't clear why some people do go on to try other drugs, but researchers have a few theories. The human brain continues to develop into the early 20s. Exposure to addictive substances, including marijuana, may cause changes to the developing brain that make other drugs more appealing. Animal research supports this possibility—for example, early exposure to marijuana makes opioid drugs (like Vicodin or heroin) more pleasurable. In addition, someone who uses marijuana is more likely to be in contact with people who use and sell other drugs, increasing the risk for being encouraged or tempted to try them. Finally, people at high risk for using drugs may use marijuana first because it is easy to get (like cigarettes and alcohol); **and**

WHEREAS marijuana is addictive. A user may feel the urge to smoke marijuana again and again to re-create the “high.” Repeated use could lead to addiction—which means the person has trouble controlling their drug use and often cannot stop even though they want to. It is estimated

that about 1 in 6 people who start using as a teen, and 25% to 50% percent of those who use it every day, become addicted to marijuana. What causes one person to become addicted to marijuana and another not to depends on many factors—including their family history (genetics), the age they start using, whether they also use other drugs, their family and friend relationships, and whether they take part in positive activities like school or sports (environment). People who use marijuana may also feel withdrawal when they stop using the drug. Withdrawal symptoms may include:

- Irritability
- Sleeplessness
- Lack of appetite, which can lead to weight loss
- Anxiety
- Drug cravings

These effects can last for several days to a few weeks after drug use is stopped. Relapse (returning to the drug after you've quit) is common during this period because people also crave the drug to relieve these symptoms; **and**

WHEREAS marijuana has other affects. It is very unlikely for a person to overdose and die from marijuana use. However, people can and do injure themselves and die because of marijuana's effects on judgment, perception, and coordination, for example, when driving under the influence of the drug. Also, people can experience extreme anxiety (panic attacks) or psychotic reactions (where they lose touch with reality and may become paranoid); **and**

WHEREAS marijuana affects education standards. Studies show that marijuana interferes with attention, motivation, memory, and learning. Students who use marijuana regularly tend to get lower grades and are more likely to drop out of high school than those who don't use. Those who use it regularly may be functioning at a reduced intellectual level most or all of the time.

ATCH 3

UNIVERSITY AREA COMMUNITY COUNCIL (UACC) RESOLUTION 2015-04A

A Resolution of UACC Concerning a Proposed Tennis Facility

DRAFT

WHEREAS, the Anchorage Municipal Charter Art, VIII, Sec 8.01 established Community Councils as neighborhood representatives for planning and development;

WHEREAS, Les Sheppard, former Alaska real estate developer, proposes that a multiple acre parcel of Anchorage Municipal land (designated as PLI) located immediately north of Northern Lights Blvd. between Career Center Drive and the footbridge over Northern Lights Blvd. at Goose Lake be designated for use as a tennis club facility;

WHEREAS, Les Sheppard indicated in a graphic handout (attached) that the tennis club facility would contain a large building containing nine indoor and eight outdoor tennis courts, paved driveways, parking lots and vehicle and bus turnaround areas;

WHEREAS, the tennis club could only be entered and exited via the westbound lane of Northern Lights Blvd;

WHEREAS, Les Sheppard indicated that once the land was dedicated for tennis, he would create a foundation to raise money to build the tennis club facility and users would be obliged to join and pay fees to play tennis;

WHEREAS, Les Sheppard indicated that he would like the UACC to prepare a statement to the Municipality of Anchorage in support of such designation while any discussion about terms of use, including whether the outdoor courts could be made available to the public without charge, should await completion of such designation;

WHEREAS, the parcel is wooded and serves as a drainage area to the Middle Fork and South Fork of Chester Creek, a habitat for a variety of wildlife and trail area for hiking and wildlife observation;

NOW THEREFORE, the UACC hereby resolves to oppose the designation of the specific parcel for tennis because such designation would in effect eliminate the free use of the parcel by the public in favor of exclusive use by paying tennis club members.

Resolution Vote: For ____ Against: ____ Abstain: ____

This resolution was approved by the University Area Community Council this day of April 1, 2015.

Albert K Milspagh, Vice President, UACC

“The purpose of the council shall be to improve communications between the citizens of the community and all entities, which may affect it, to encourage community involvement of all citizens, and to respond to local government proposals submitted to the council.”

UNIVERSITY AREA COMMUNITY COUNCIL (UACC) RESOLUTION 2015-04B

A Resolution of UACC Concerning a Proposed Tennis Facility

DRAFT

WHEREAS, the Anchorage Municipal Charter Art, VIII, Sec 8.01 established Community Councils as neighborhood representatives for planning and development;

WHEREAS, Les Sheppard, former Alaska real estate developer, proposes that a multiple acre parcel of Anchorage Municipal land (designated as PL1) located immediately north of Northern Lights Blvd. between Career Center Drive and the footbridge over Northern Lights Blvd. at Goose Lake be designated for use as a tennis club facility;

WHEREAS, Les Sheppard indicated in a graphic handout (attached) that the tennis club facility would contain a large building containing nine indoor and eight outdoor tennis courts, paved driveways, parking lots and vehicle and bus turnaround areas;

WHEREAS, the tennis club could only be entered and exited via the westbound lane of Northern Lights Blvd;

WHEREAS, Les Sheppard indicated that once the land was dedicated for tennis, he would create a foundation to raise money to build the tennis club facility and users would be obliged to join and pay fees to play tennis;

WHEREAS, Les Sheppard indicated that he would like the UACC to prepare a statement to the Municipality of Anchorage in support of such designation while any discussion about terms of use, including whether the outdoor courts could be made available to the public without charge, should await completion of such designation;

WHEREAS, the parcel is wooded and serves as a drainage area to the Middle Fork and South Fork of Chester Creek, a habitat for a variety of wildlife and trail area for hiking and wildlife observation;

NOW THEREFORE, the UACC hereby resolves to oppose the designation of the specific parcel for tennis unless the above mentioned foundation commits itself (and its successors) in writing to the Municipality as part of such designation that it and club members will pay the full costs of operation and maintenance of the entire tennis club facility and that the eight outdoor courts will be available during non-winter months for free use by the public except for the reasonable expense of electricity for coin operated lights. In which case we would support this modified designation.

Resolution Vote: For ____ Against: ____ Abstain: ____

This resolution was approved by the University Area Community Council this day of April 1, 2015.
