## 5. New Business

A. Brownfields Advisory Council – Steve Johnson reported that the Muni has an EPA grant for brownfields remediation and is required to seek input from the public. Shelly Rountown, in charge of the project for the Muni, will present at the June CPCC meeting. The brownfields page on the Muni.org website provides background information on this project. According to a map at DEC, there are 14 unremediated brownfields within CPCC.

B. Trash and Squatters on DOT Land (New Seward Highway/Campbell Creek) – Steve Johnson reported that, in a change from previous practice, Muni now handles remediation of squatters and trash on DOT property in Anchorage. In response to a query, Andy Josephson's office provided a link to the DOT staffer who described the new practice. Subsequently, Muni personnel cleared the longstanding trash pile under the New Seward Highway at the Homer Avenue/Midtown CC side of Campbell Creek Trail. The two tents at Waldron Lake near Campbell Creek trail have also been removed and the sites cleaned. A complaint from a CPCC resident to our chair initiated this chain of events.

## 6. Discussion

Naomi Sweetman suggested that CPCC compose and submit a resolution on the need to remove squatters from public lands because of the danger of wildfires starting in camps. Cherie Northon and Jean Sauget will work on text of the resolution.

In answer to query, Kevin Fimon reported that AWWU has not yet put to bid the project to install new water lines on Shelikof, Rakof and Becharof Streets.

7. Next meeting will be held June 20, 2020.

8. The meeting adjourned at 7:44 p.m.
