Re: Improvements for Didlika Park

Dear Sirs,

We are the Girl Scout Brownie Troop 21004, and we are meeting at Didlika Park on Wednesdays at 5:00. Our Troop has 4 girls in 2nd grade, and we live close to the park.

We are working on our Brownie Quest Journey and learning how to connect with the greater community in Anchorage.

We wanted to contact you about some improvements that we hope can be made to enhance the park.

1. A bear proof trash bin
2. Grading the sand in the play area. There are some large dips in it. We saw 2 young girls playing in a puddle in the sand – then peed in it – then kept playing in the puddle. This is very unsanitary

We like to play and are hoping for more equipment: Here are some suggestions:

1. More swings There are 4 of us, and only 2 swings (and 1 baby swing)
2. Balance Bars
3. Monkey bars
4. A climbing dome – don't quite know the name of it

There are lots of kids in the neighborhood, and we would love to hear from you soon about what is possible to provide more play things for our age group.

Yours,

Susan Schnering, Leader
Ailsa Kenzie Lucy Molly
