

Kincaid Elementary School Site Improvements Design Project Community Meeting

The condition of Kincaid Elementary School's driveways, parking areas, site drainage, and how we access the school have changed significantly since the school was built in 1996. There are more cracks in the sidewalk, more puddles in the playground, and longer lines of traffic during school drop off and pick up.

Join Us on June 15!

Join project team members to learn how parent, teacher, student, and community input is reflected in the proposed site designs alternatives at a public **open house and community meeting on June 15, 2022** between 4:30 and 6:30 p.m. at Kincaid Elementary School.

We'll use your comments to refine the site plan's preferred alternative, which will be submitted to the Municipality of Anchorage's Urban Design Commission for review later this summer.
