

ALYSE'S BULLETIN FROM THE CAPITOL

Thursday, March 2, 2023

Anchorage Delegation Town Hall

You're invited to share the issues and projects that are important to you. This is an opportunity to interact with your Anchorage area legislators in person.

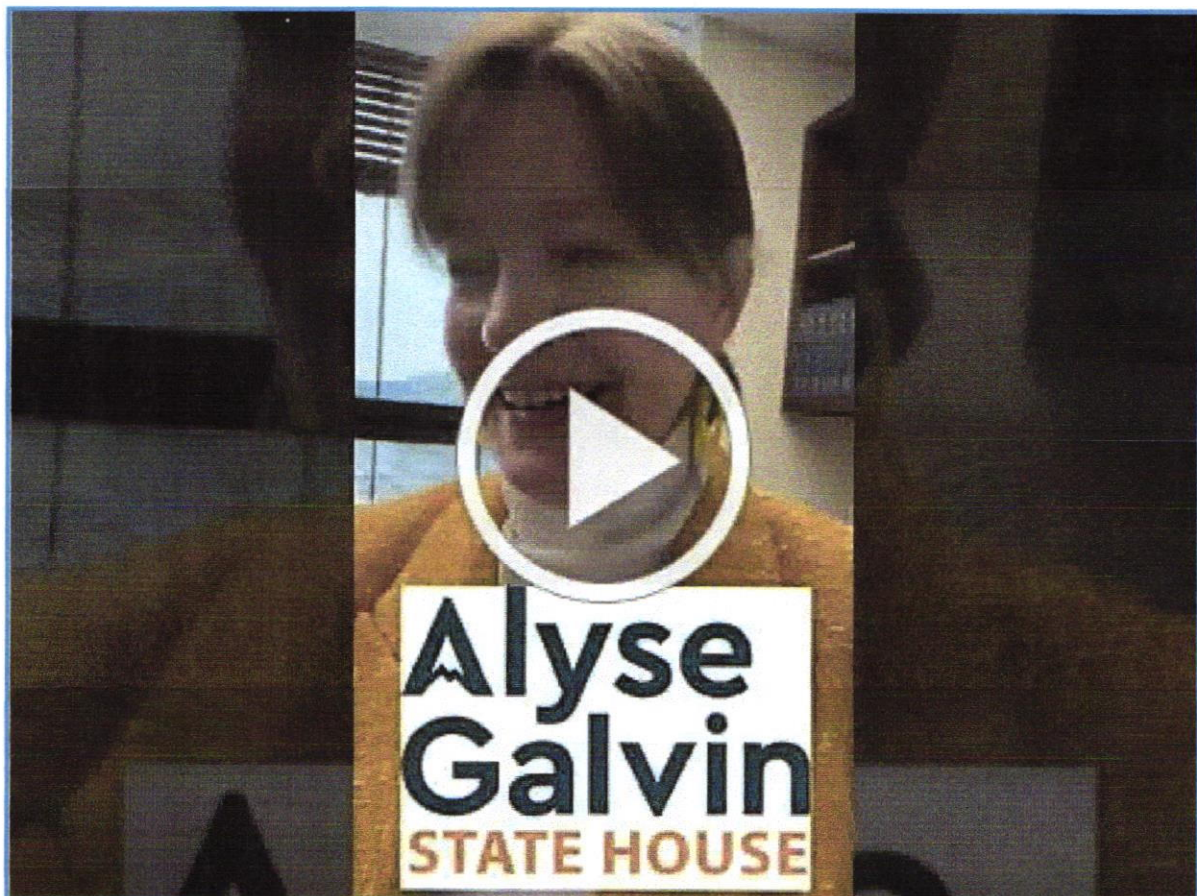

Update from the Capitol this week

- Passed the first bill related to refrigerants aligning with safety standards and building codes.

- Passed a joint resolution related to encouraging the state to continue to protect fisheries by making policy decisions based on science.
- With the House Coalition, I participated in a **press availability** related to ensuring the House moves on bills critically important to Alaskans, particularly Public Education and a meaningful retirement plan that attracts and retains educators.

A Short Selfie Summary

Alyse meets with Rep. Dan Ortiz about his bill to increase the Base Student Allocation (BSA) and they agree that she will be a co-sponsor of the bill. Follow **HB 65** online to see its current status.

World Compliment Day

This day started in the Netherlands in 2000, with the goal of making this the most positive day in the world. A reminder that little things can make a difference. A compliment such as a hand written note to show appreciation can positively impact a persons day.

I'm going to take this moment to acknowledge that I have the best constituents in the state, and the most dynamic district. I appreciate the opportunity to represent you in Juneau. I especially appreciate any opportunity to interact with my constituents. Your voice matters!
