

**Resolution 2024-02**

Northeast Community Council (NECC)

May 16, 2024

**Opposition to Boundary Avenue East Extension to Centennial Circle Drive**

Whereas, Boundary Avenue located on the southern boundary of Centennial Park near the Muldoon Glenn Interchange dead ends on the property of the Alpine Village Condo Association and is a fairly quiet street with four speed humps and two large hills; and

Whereas, \$500,000 was allotted in a Fire Bond for the planning of an extension of Boundary Ave. East through a steep hill to Centennial Circle, of which only \$140,000 was actually used for said purpose and, no account has been given of the remaining \$360,000 when requested by the NECC; and

Whereas, the company that received the \$140,000 has never showed the plans to the NECC as requested; and

Whereas, Cook Inlet Housing Authority was required to build a second access road from the water facility to the North when the Eklutna Estates apartment homes were built at their own expense, and thus negating the need for the push through Boundary Avenue since a second access road now exists; and

Whereas, Cook Inlet Housing Authority has indicated that they see no benefit from the proposed roadway extension.

Let it be hereby be resolved that the Northeast Community Council request that the Boundary Avenue push through to Centennial Circle be removed from future municipal plans and that a four way stop on Muldoon and Peck be considered as the next step in making our area safer for emergency vehicles, people mover buses, school buses, and area residents and visitors to the senior housing at the end of Peck Avenue off of Centennial Circle.

**Resolution Vote:** For 27 Against: 1 Abstain: 3

Ronald P. Meehan President, NECC
