

FAIRVIEW COMMUNITY COUNCIL

A Resolution Proposing the Council 2025 CIP List be Amended

Resolution 2024-10

Whereas, The Fairview Community Council approved its 2025 CIP prioritization list in May of 2024; and

Whereas, 2025 CIP includes the Fairview Greenway as a priority for Municipal Parks and Recreation; and

Whereas, The Council has learned that any future Fairview Greenway connecting Chester Creek and Ship Creek Greenbelts would very likely impact Municipal streets in some fashion; and

Whereas, Efficient project development necessitates Design work on the part of Public Works and Parks and Recreation to occur in a coordinated manner; and

Whereas, Public Works will require capital funds (typically obtained through voter approval of local Road Bonds) to coordinate with Parks and Recreation on Design work; and

Whereas, Local Road Bond funded projects draw from the CIP prioritization lists of Community Councils and thus the FVCC CIP list needs to also include the Fairview Greenway as a future project under Project Management and Engineering.

NOW THEREFORE BE IT RESOLVED, the FVCC amends the 2025 CIP project prioritization list by inserting "Fairview Greenway-Design" as the number two item in the Project Management and Engineering category. Other projects move down.

This Fairview Community Council after obtaining a quorum of 15 members All Approved
0 Disapproved this resolution by a vote of All Aye and 0 Nays 0 Abstentions.

Attested this 12th day of Sept., 2024.

President
Fairview Community Council

James Thornton
