Hi Ali,

Can you push this out Council wide with the info in my email back to BIA and the 3 day extension?

Ms. Yazzie,

As you can see by the email forwarding, our Community Council only just became aware of this EA today, Jan 6. Jan. 6 also happens to be your assigned closing day for comment. I believe it is disingenuous to set a comment period of 15 days and then assign it over the Christmas and New Years holidays.

Most Community Councils only meet once a month, with Chugiak CC meeting the third Thursday of each month. For us to notify our members and allow them time to comment generally takes approximately 30 days at a minimum. Is it possible to get the comment period extended out to the middle of February to give adequate opportunity for comment? Our Council will meet on 16 Jan.
