Notice of Meeting– Thursday February 5th, 2008, 7:00 PM

Library @ Turnagain Elementary School

Agenda Overview

- **Lyn Ary Park Baseball Field Realignment and Park Improvements-** A representative from the Parks Dept will discuss plans for realignment of the ball fields and improvements to the park.
- **Runway 7R Extension.** The Anchorage International Airport is working on an Environmental Assessment involving the proposed extension of one of its two east-west runways. It would require re-routing the Sisson Look Trail which is located on Anchorage Heritage Land Bank Property and extension of new runway approach lighting onto the Heritage Land Bank Property. The Federal Aviation Administration would require access to the proposed relocated Approach Lighting System towers in order to have the ability to address maintenance needs as soon as they arise. This has implications for the Sisson Loop Trail because portions of the Sisson Loop trail overlie and cross the access road.

- **The Chester Creek Force Main Discharge Structure** under Turnagain Street just south of Northern Lights Boulevard needs to be repaired to address deteriorating concrete. Construction is expected to occur in the June/July timeframe and will result in some temporary traffic delays on Turnagain Street.
- **Traffic Calming** – TCC participated in the identification of traffic calming projects in our area. Two traffic calming locations have been designed and after public input have been re-worked. Come see how the **Milky Way and McKenzie Dr. Projects** have been reworked and provide feedback.
