

## Minutes of the 25 Aug, 2010 Anchorage Airport Communication Committee

Attendees: Matt Claman, Turnagain CC, Chair

Cathy Gleason –Turnagain CC

Teri Lindseth –ANC Planning

Jack Jones – ANC Planning

Robert Auth – Spenard CC

Paula Spreter – Mia Costello Outreach Director

Scott Lytle – ANC Environmental

John Johansen - ANC

Ernie Hall – Anchorage Assembly

Steve Strait – AK Aviation Advisory Board

John Parrott - ANC

1. Decision was made to defer discussion of group charter and goals until more participants could participate
2. WADP – pre-public draft is being reviewed by committee. Extension for comment due date has been requested (and subsequently granted until 3 Sep). There was additional discussion on the timeline and additional process.
3. Kulis-John Johansen reported that a draft land use plan should be out in draft by the end of Sep. ANC Airport Land Use Plan submittal to FAA will follow. Some portions may be designated non-aviation but that has not been decided. The Kulis land use plan may not show a preferred alternative but rather defer to the next ANC Master Plan since the first phase of development does not likely preclude any of the later options.
4. Deicing –Scott Lytle reported that the airport continues to work with the air carriers and ground handlers to reduce use of deicing fluid. More companies are converting to using air and proportional mixing.
5. Traffic – John Parrott reported that passenger traffic appears to be similar to 2009. Cargo traffic is up well over 2009 levels and nearly to 2006/2007 levels for the past month.
6. Cargo Transfer Summit – ANC recently hosted executives from 18 cargo carriers to explain and discuss the business opportunities that are available at ANC and Fai due to the liberalized cargo transfer regulations. The information was well received and several discussions between potential business partners took place.
7. Cathy Gleason reported that she had been at a meeting where UAF briefed that they can provide meeting facilitators for groups. She will investigate further.
8. Discussion of the many groups that interact with the airport. John Parrott will compile a list to see if there is duplication and to let all know who/what the various groups are.
9. Next Meeting 10/21 at 4pm.
