A RESOLUTION REGARDING THE ENCROACHMENT INTO FAR NORTH BICENTENNIAL PARK AT THE GREND AHL PROPERTY AT 7720 LODGE POLE COURT

September 15, 2011

The Mid-Hillside and Hillside East Community Councils find that it is outrageous that this significant encroachment into Far North Bicentennial Park has existed for several decades. We are dissappointed at the Grendahl's lack of response to correct the problem.

We request that the Municipality of Anchorage:

- Work towards restoration of the area of the encroachment to a natural state.
- For the safety of the neighborhood and for the potential need for access in case of wildfire in the park, align the road to allow emergency vehicles the ability to turn around.

This resolution was approved at the combined general meeting of the Mid-Hillside and Hillside East Community Councils on September 15, 2011. The meeting was advertised through the email newsletter and the Councils' website. This resolution passed unanimously by the Councils.

Linda Lappi – President
Hillside East Community Council

Lance Powell - President
Mid-Hillside Community Council
