Anchorage, AK 99515.
 - c. Proposed roundabout main characteristics: to slow Rabbit Creek Road traffic both uphill and downhill by making it a secondary road to Goldenview Drive. Rabbit Creek traffic would transition from a 10.5% grade to a 2% grade at the roundabout (downhill) and from a 7% grade uphill to 2% grade at the roundabout. (uphill). In addition, Rabbit Creek traffic would be required to veer substantially off the straight path. Pedestrian traffic would be required to traverse adjacent to the roundabout in the road right of way. Berms would separate traffic along Rabbit Creek Road.
 - d. Other options include an overpass for Goldenview traffic to merge downhill on a second lane of Rabbit Creek, and other suggestions.
 - e. The proposal to install a roundabout nearly complete so if you are interested in making a comment, please do so NOW. This intersection is presently the FIRST PRIORITY for construction among the multiple projects of the AMATS: South Anchorage & Hillside project.
